July 24. 1834,

General description.

In this Township the soil is generally
speaking good; it is entirely Prairie gently

T. 27 N., R. 8 W. 2. Mer. Ind.
 Chas. P. N.

rolling; sloping from the South Boundary towards the Pickamink River. The vegetation is commonly grass such as grow upon Prairies, intermixed with the weed called the Rosin-weed from which the Physicians of our country say, can be obtained a Gum equal to the pitch of Burgundy. There are few small ponds of water interspersed that hold water a short time during the rainy season, which I did not deem worthy of notice in my field notes as I passed along.

Nothing further worthy of notice that I can give information of.

I hereby certify, that in pursuance of a contract with M. T. Williams, Surveyor General of the United States for the States of Ohio and Indiana and the Territory of Michigan, bearing date the 20th of May 1834, and in conformity to the laws of the United States and the Instructions of said Surveyor General, I have surveyed and subdivided into sections Township N. 27 North of Range N. 8 West of the Second Principal Meridian in the State of Indiana. And I further certify that the foregoing are the original Field Notes of said survey as aforesaid.

Certified this 24th day of July 1834

Perrin Trent

Worsley H. Taylor	
E. F. Lucas, Flag-bearer	

I certify that the foregoing transcript
of Field Notes of the survey of Township
N. 27 North, in Range N. 8 West of the
2^d Principal Meridian, in the State of In-
diana, has been compared with the original
on file in this office, and found to be correct.
